Stage 1

Production: concentrate on clarity and precision. Co-ordinate breath flow and tongue stroke.

1.

Use breath flow to present the notes. Keep the air moving to give a resonant, full sound throughout the length of all notes. Make sure that the notes following quavers are clearly articulated.

Maestoso J=90

Pipe Poco marcato

Sim

Sim

2.

Keep the breath moving in a bouncing manner, making sure that the point of the tongue moves quickly and strikes lightly.
